JAMES COSTIAN

Computer Science Major | 214-799-7002 | james@jamescostian.com

EDUCATION

Class of 2019 at The University of Texas at Dallas, 3.7 GPA
Project Manager of UTD Makerspace

EXPERIENCE

LotusBlaze, LLC
Lead Developer
2009 - Present

- Built a web app, LotusBlaze Presales, that is used by global, publicly-traded corporations to optimize and automate their Presales function (currently over 18,000 lines of code and over 2,000 git commits)
- Created websites for small businesses (including eCommerce functionality)
- Administered Linux servers since 2012, Windows servers since 2014
- Managed geographically-redundant database and worker clusters

QliqSOFT
Programming Intern
Jun 2017 - Dec 2018

- Led the creation of a healthcare portal as part of a telehealth solution that supports custom BPMN workflows, with an Angular 4 front-end and a Node.js backend
- Developed an iOS and Android app using React Native

Miscellaneous
Programming-Related
Experience

- Contributed to various original as well as community-developed open source projects
- Developed single-handedly an online training platform for an organization active in 44 countries (over 1000 registered users)
- Presented SEO techniques to a nationwide non-profit organization
- Invited to teach front-end technologies for a club at UTD
- Certified JavaScript Specialist and Web Design Specialist by CIW
